Mumbai University

B.E in Information Technology, 7.85 CGPA

Mumbai, India

May 2023

Viva College of Engineering and Technology

Diploma in Computer Science, 89.18%

Mumbai, India

May 2020

Professional Summary

React.js Developer with **2+ years of hands-on experience** in building scalable, role-based web applications. Strong experience in **React.js, JavaScript, REST APIs, ContextApi** and backend exposure with **Laravel & PHP**. Passionate about clean UI, performance optimization, and building real-world business solutions.

Experience

Fi Ellements | Software Developer

January 2025 – Present

- Developing and maintaining a **multi-role car booking management system** used internally by the company.
- Implemented **end-to-end booking flow** including presales and postsales car processes.
- Built **role-based dashboards** for different user types (admin, sales, operations, etc.).
- Integrated REST APIs and handled dynamic data rendering in React
- Collaborated with backend teams to design efficient APIs and improve application performance.

Careernova Technolog | Frontend Developer

September 2024 – December 2024

- front-end development of an educational management platform, using React.js, HTML, and tailwindCSS to build dynamic and responsive user interfaces.
- Engineered key React components for student data management, video lecture libraries, and teacher administration panels, creating an intuitive user experience for administrators and educators.
- Implemented user authentication, project listings, and contribution workflows.

Rdigi Works | Full Stack Developer

October 2023 – May 2024

- Developed and **maintained** the front-end for a children's admissions and activity portal using core web.
- Translated design mockups into fully functional, **responsive web pages**, focusing on user-friendly forms for admissions, dynamic brochure displays, and clear call-to-action elements.
- Built interactive **UI components** for program browsing, class schedules, and enrollment workflows to enhance parent engagement and streamline the sign-up process.

Technical Skills

- Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- State Management:** Redux Toolkit, Context API, React Hooks (useState, useEffect, useRef) etc.
- Backend:** PHP, Laravel, RESTful API Development, Eloquent ORM, Authentication
- API & Tools:** REST APIs, Axios, Postman
- Database:** MySQL (basic knowledge)
- Version Control:** Git, GitHub, GitLab
- Others:** Role-Based Access Control (RBAC), Responsive Design
- Routing:** React Router DOM
- Performance & Optimization:** Code Splitting (React.lazy, Suspense), Memoization (React.memo, useMemo, useCallback), Lazy Loading.
